Docker, server setup, CI/CD

AWS SNS, GCS, Firebase, Vercel, Jenkins, Git

EDUCATION

B.S. Information Technology
Golden Success College, 2015–2019

NC II Computer Systems Servicing, TESDA

Jayson L. Jadraque

Solutions Architect · AI Team Lead · Full-Stack Developer

Solutions Architect and AI Team Lead with 7 years of experience building scalable web applications and AI-powered solutions. I lead AI development, integrate AI into existing production systems such as NativeCamp, and ship chatbots and automation workflows with Dify, n8n and LLM APIs. Heavy daily Claude user, and I run my own AI YouTube-automation project with local LTX (video) and mflux (image) models.

EXPERIENCE

Solutions Architect & AI Team Lead
Oct 2023 – Present

Forty Degrees Celsius Inc.

- Lead the AI team building production AI chat-support chatbots and automation workflows with Dify and n8n, with enterprise-grade architecture for security, modularity and performance.
- Solutions Architect for NativeCamp (online English platform, Japan): AI integration features, critical bug fixes and multiple delivered tickets.
- Apply prompt engineering to make model output reliable for real use cases and cut manual workload.
- Turn stakeholder and client requirements into architecture and design specs; choose stacks; identify technical risks early.
- Run code reviews and daily stand-ups; mentor junior developers.

Software Engineer
Feb 2022 – 2023

Clariti Consulting

- Led full-cycle delivery from planning to deployment and maintenance.
- Built Ignitesales (Node.js, Next.js, NestJS, PostgreSQL); resolved database performance and capacity issues.

Web Developer
2021 – Feb 2022

ITHECHRAR

- Delivered the 8990 FTDH Billing System and Gakkou School Management System (PHP, Laravel, MySQL); owned maintenance, scalability and documentation.

Junior Web Developer
2019 – 2021

HL Infin8 Solution Corp.

- Built and maintained PHP web applications as part of a collaborative team.

SELECTED PROJECTS

NativeCamp — AI-powered English conversation platform (JP). PHP 8.2/CakePHP, Vue 3, WebRTC, Firebase, Jenkins, Stripe/PayPal. nativecamp.net

Wordspark.ai — AI blog creation platform (UK); image-rich posts in under 60 seconds. Node.js, Express, AI APIs. wordspark.ai

Ignitesales — B2B marketing & outreach platform. Next.js, NestJS, PostgreSQL. ignitesales.app

8990 FTDH Billing — WiFi subscription billing. Laravel, MySQL. 8990ftdh.com

AI YouTube automation — personal project using Claude, n8n and local LTX / mflux generation.
